

November 2020

Continuing with our Africa topic this term, we have studied a range of stories from other cultures – including from Ghana, the cunning spider Anansi and his adventures. Using the writing features we have learnt so far including fronted adverbials and speech punctuation, we have written our own Anansi stories and his dealings with the Sky God!

We have really enjoyed our new science topic 'Electricity'! After learning about the sources of electricity and how it makes its way into our homes, we have learnt how to construct and compare our own electrical circuits to see which are complete or incomplete.

Lastly, we have shown our learning behaviours when having a go at telling the time and solving time word problems such as adding and subtracting time, as well as calculating time durations. The children should be very proud.
