

November 2020

This month, we have been doing some exciting work in year 6.

As part of our WWII topic, we made and tested some model planes. Most of them flew really well!

For our home learning project, we made some amazing World War II models. They looked brilliant.

In English, we wrote a story about an air raid in WWII and created some artwork to go with it.

We found an interesting way to vote anonymously in our school general election.
