

December 2020

We have been fascinated learning about the Komodo Dragons native to Indonesia – we are using all of our knowledge and Year 4 writing targets to produce formal and interesting Non-Chronological reports.

In French, we have been building on our skills to present ourselves by learning to discuss our families including the names and ages of our brothers and sisters. The children are becoming much more confident at decoding unfamiliar texts and we have been able to learn more about our classmates too!

To show we have understood South American Geography, we have written travel articles to inform people of the advantages and disadvantages of travelling to Brazil – warning tourists of the dangers of the perilous Amazon and the wonders of colourful Brazilian city carnivals. Make sure to take some Brazilian Real with you for spending and learn some Portuguese!

Well done on such a positive term Year 4, we hope you have enjoyed it as much as we have. Have a safe and restful Christmas break – see you in the New Year!
