

March 2021

In DT, we have tried our hand at designing and sewing our own containers.

From collecting cuboids, to finding different formats of dates & times, to creating sequences out of different objects, we have had so much fun with their #FindItFriday activities in Remote Learning!

In English, we started off the Spring term in a seasonal-appropriate fashion with Winter's Child, where we wrote some beautiful letters to Winter's Child and some poems about winter using figurative language.

Following on from Winter's Child, we thoroughly enjoyed learning about all the fantastical creatures in Arthur Spiderwick's Fieldguide. Here are some of our half-term projects: tiny homes for mythical garden creatures!
