

MARCH 2021 SPRING 2

Our Music unit for this term has had a foundational focus on 'Happy' by Pharrell Williams. However, due to Covid, we haven't been able to sing. So, we've incorporated dance and BSL songs into our lessons too, which have been fun to dance and sign to!

Since returning to school, we have enjoyed completing a variety of mindfulness activities, including creating this beautiful wall of Mindful Monarchs, where we can remind ourselves each day of different ways to practise mindfulness and focus on good mental health.

In English, we have been writing a variety of texts inspired by different animal stories. Here, we created our very own 'Perfect Pet', inspired by The Barnabus Project.

In RE, we have been learning about how different religions express faith through different art forms. Here, we learnt about the significance and symbolism behind Muslim prayer mats.

In Science, we had the opportunity to carry out a yeast investigation, experimenting on the different effects foods have on yeast mixed with water. Sugar created an impressive reaction with the yeast solution!
