GOVERNING BODY

ACCESSIBILITY PLAN

FULL GOVERNING BODY	July 2024
DATE FOR REVIEW	July 2025

ALMOND HILL JUNIOR SCHOOL

The aim of this plan is to develop facilities and practice to provide access to education and educational achievement by disabled pupils to ensure equality of opportunity.

The definition of disability is a broad one. ‘A person has a disability if he or she has a physical or mental impairment that has a substantial and long term adverse affect on his or her ability to carry out normal day-to-day activities’ (Equality Act 2010). The Equality Act 2010 replaced previous discrimination law and provides a single piece of legislation covering all types of discrimination that are lawful.

In drawing up the plan, consideration has been given to the needs of current and prospective disabled pupils.

It is recognised that the school will introduce reasonable measures over a planned period. Where arrangements involve expensive capital development or other significant costs, the school will liaise with the LEA regarding possible funding.

The school has undertaken a review of current provision and outlined plans for a three- year period.

Almond Hill Junior School considers it duties under the Act under the following broad headings:

- Participation in the environment
- Physical access to facilities and service
- Availability of information
